As Executive Director at Restorative Thinking, **Lesley Parkinson** supports a restorative education for all (including pupils, children, parents and carers, workforce professionals, young and adult offenders), promoting key life skills in restorative practice via training programmes and consultation.

Restorative Practice at Work

Six habits for improving relationships in healthcare settings

Lesley Parkinson

Demonstrates how restorative practice can be used to help address day-to-day challenges faced in healthcare by developing a set of six complementary habits.

Restorative practice is emerging in healthcare settings and systems as a highly effective means of improving relationships and enabling positive change. It consists of a set of theories, principles, skills and processes that shape our thinking around the way we interact with others. When restorative practice is adopted consistently within and between teams, it becomes 'the way we do things round here', a set of restorative practice 'habits' that we all recognise, use and refer to.

Restorative Practice at Work identifies a set of six complementary habits which will help to change and improve everyday communications in healthcare. These habits demonstrate how restorative practice can help to ease some of the daily challenges faced by healthcare professionals and foster more effective working relationships, potentially leading to improvements in patient care.

Suitable for NHS leaders, managers, clinicians and staff and those in other healthcare settings such as researchers, academics, HR professionals and educators.

BWRT®

Reboot your life with
BrainWorking Recursive
Therapy

Terence Watts

Written by Terence Watts, BWRT®: Reboot your life with BrainWorking Recursive Therapy is an engaging self-help guide to using BWRT: a psychological approach designed to tackle stress, anxiety, phobias and many other of life's challenges.

BWRT is a completely personalised therapy that is customised specifically to the way your brain and mind work, and is scripted in such a way as to enable you to overwrite any problem you're experiencing with new thinking.

The technique has a strong foundation in science and evolutionary biology and is designed to work directly in the cognitive gap between the reptilian complex responding to a trigger (such as a stressful situation) and the individual becoming aware of what's happening.

Suitable for anyone wanting to rewire their psychological responses to life's challenges.

BrainWorking Recursive Therapy (BWRT) is a registered trademark of Terence Watts.

Terence Watts is a Fellow of the Royal Society of Medicine, and the only psychology related therapist to have been awarded the MCGI (Member of the City & Guilds Institute). Founder of the Essex Institute of Clinical Hypnosis, the Institute of BrainWorking Recursive Therapy and The British BrainWorking Research Society, he is an international lecturer and trainer and runs popular online training seminars.

Jackie Beere, OBE is an Independent Thinking Associate who worked as a newspaper journalist before embarking on a career in teaching and school leadership. She was awarded an OBE in 2002 for developing innovative learning programmes and is the author of several bestselling books on teaching, learning and coaching. Since 2006, Jackie has been offering training in the latest strategies for learning, developing emotionally intelligent leadership and cultivating a growth mindset.

Grow

Change your mindset, change your life – a practical guide to thinking on purpose

Jackie Beere

Demonstrates how we can all change our mindsets, learn to learn and choose to think on purpose.

Our thoughts and beliefs lead us to develop habits that can predict our success or failure. We can all choose to grow – and coach our loved ones to do the same – by fostering and sustaining a mindset that will keep us healthy and happy in future years.

Jackie Beere believes the key to this is thinking on purpose and metacognition. Jackie shows you how you can understand yourself and others so that you can be flexible, fearless and happy.

Life is full of changes and challenges but by thinking on purpose, we can all become more resilient, adaptable, self-confident and successful.

Sweet Distress

How our love affair with feelings has fuelled the current mental health crisis (and what we can do about it)

Gillian Bridge

Cutting its way through the media frenzy, *Sweet Distress* puts emotional resilience centre stage.

Using an approach rooted in no-nonsense logic, author and psycholinguistic consultant Gillian Bridge delves into a range of problems which seem to be most frequently cited as sources of mental distress. These include stress, anxiety, depression, loneliness, body image, eating disorders, social media, substance abuse, behavioural disorders, academic pressures and bullying.

The author explores how these issues have contributed to turning life events that may, at other times or in other places, have been little more than nuisances or inconveniences into sources of genuine psychic pain.

Packed with realistic and effective takeaway strategies for parents and educators, *Sweet Distress* challenges under-researched but over-promoted ideology and shares evidence-based help and advice for anyone wanting to improve the mental health of those they care about.

Gillian Bridge is a qualified teacher of English, an addiction therapist and a member of the British Association for Counselling and Psychotherapy. She has taught, lectured and coached in the field of brain language and behaviour and has also worked in prisons and on Harley Street.

Seth Godin is the author of 19 international bestsellers that have been translated into 35 languages. He's the founder of several companies, a member of the Direct Marketing Hall of Fame and an influential speaker around the world. He writes about treating people with respect, the changing economy and ideas that spread.

What to Do When It's Your Turn (And it's always your turn)

Seth Godin

A book about seeing the stuck, getting unstuck, and working within and swimming upstream in a system that often would prefer that you merely stand still.

It's about realising that it's your turn, always your turn, and understanding that once you see the opportunity, it's yours. Most of all, it's about freedom and our almost automatic insistence on avoiding it at all costs.

Written by bestselling author Seth Godin, *What to Do When It's Your Turn* is as thought-provoking as his other titles – but this book is different. Seth has pushed the boundaries once again, this time packaging his thoughts in a beautiful full-colour format to spread its message as far and wide as possible. It is a collection of short stories and essays that help the reader know 'what to do when it's your turn' in life.

Seth pushes us to dig deep inside so we can do better work and impact the things we care about – and his message is urgent, personal, in-your-face and as honest as he could make it.

My Child's Different

The lessons learned from one family's struggle to unlock their son's potential

Elaine Halligan

Explores the enabling role that parents can play in bringing the best out of children who are seen as 'different' or 'difficult'.

In *My Child's Different* Elaine shares the true story of her son Sam, who by the age of seven had been excluded from three schools and was later labelled with a whole host of conditions – ranging from autistic spectrum disorder (ASD) to pathological demand avoidance (PDA), before finally being diagnosed with dyslexia. He had become 'the Alphabet Kid'. His family never gave up on him, however...

Interspersed throughout the narrative are the reflections and insights of parenting expert Melissa Hood, who illustrates the key concepts from Sam's story and shares practical positive parenting techniques to help parents better connect with their children.

Suitable for parents, educators and anyone who works with children.

The Wolf is Not Invited

Avril McDonald

Wolfgang is left heartbroken when his best friend Catreen runs off without him to play with Clarissa. Spider shows Wolfgang how to make his own fun and Wolfgang realises that there are other great friends out there just waiting to be met! There are some situations and feelings that we cannot change and there are some that we can. Knowing the difference between the two (and some ways to make ourselves feel happy) is a great trick to have up our sleeves!

The Grand Wolf

Avril McDonald

Wolfgang and his friends love to visit the Grand Wolf but one day they arrive to find that he has gone and this makes them all feel very sad. Spider shows Wolfgang that by just seeing things a little differently he can feel happy again, knowing that true love never ends. Our lives are in a constant state of change and only we can ever know how big each change feels to us. The more we can talk about and embrace change, the better we get at it (whatever shape or size it comes in).
